TECHNICAL EXPERIENCE

Full Stack Developer Intern

May 2023 - August 2023

Saral Technologies, WO Health- a startup focusing on women health

Remote

- Developed a responsive website using HTML, CSS, and JavaScript to ensure cross-browser compatibility and mobile responsiveness and implemented efficient backend processes, resulting in improved website speed and responsiveness.
- Collaborated with the design team to enhance the website's UI/UX, which resulted in a decrease in bounce rate and an increase in average session duration.
- Curated content to cater to the users' needs, optimized content structure, metadata and keyword usage to improve the website's search engine ranking and visibility.

PROJECTS

Plant Disease Detection and Cure. Built a Deep learning model using CNN to detect diseases in plant which suggests the precautionary measures and cure by using PyTorch, Flask, HTML and CSS.

Crypto App. Developed a website which displays live stats and news about all the cryptocurrencies using Coin-ranking API and Bing News API. Made using React.js, Redux toolkit and Ant design.

Hotel Management System. Created a database management system to keep a track of available rooms, book rooms and generate invoice using MySQL, Python, Tkinter.
